ASSEMBLY INSTRUCTIONS  
FOR  
BENCH  
"IN-GROUND"  
MOUNTING KIT

- 1.) Lay assembled bench on its side.
- 2.) Hold Plastic "T" shaped part flush against bottom of bench leg while lining up pre-drilled holes to bottom of leg.
- 3.) Insert stainless steel screws (enclosed) through pre-drilled holes in part and drive into bottom of leg with drill.  
(multi-speed handheld drills like Dewalt work best)
- 4.) Place bench in pre-dug holes in ground and fill with concrete.
- 5.) Allow concrete to dry overnight before sitting on bench.

Fasten screws into the Bench Leg Bottom
